

The Appointment of Outside Representatives and what this means

The role of the Outside Representative is to act as a liaison contact or conduit between the Council and the outside organisation. In fulfilling that role the representative is expected by the Council to convey its corporate message to the outside organisation and help explain reasons for its policy decisions.

Conversely the representative is expected to help promote the Council's understanding of issues raised by the outside organisation for the Council's information and possible consideration.

Representatives are invited to report to the Council at its meetings through the submission of a written report. Issues requiring separate consideration can of course be brought forward through the Clerk onto the appropriate Committee Agenda.

For the Civic Year 2019-2020 the Appointment of Representatives are as follows:
